1 Current Service Charges

This area lists each recurring monthly charge posted to your account for a subscribed service network such as telephone service. This section identifies each charge and shows the effective dates, number of units charged for, the cost per unit and the total cost. This area may be followed by a section for Other Charges and Credits, which displays any non-recurring charges and credits posted to your account during this billing cycle. It includes a description of each charge or credit and the amount. Any associated Taxes, Surcharges and Fees will also be displayed.

2 Current Long Distance Charges

This section shows all the toll calls placed during the current billing cycle. In addition to details for each toll call, it groups calls by "call type" to show all calls and subtotals within each calling plan, direct dialed, and other call types. The calls are also grouped and subtotaled by long distance carriers and you may have separate sections or pages for calls handled by different carriers.
