### DFT Communications' Response to the COVID-19 Virus

DFT Communications has been closely monitoring developments regarding the ongoing spread of COVID-19—novel coronavirus—both domestically and abroad.

Our priority is the health and wellbeing of our customers, staff and community. With the overwhelming concern of COVID-19, we believe the best way to be prepared is to be educated. We encourage everyone to do their research on COVID-19, and to be sure that the information you are getting is from a credible source. The CDC has compiled an FAQ on the coronavirus, to help educate the community on what this virus is, who is at risk, and how we all can take measures to prevent its spread. You can find the CDC information on COVID-19 here:

<https://www.cdc.gov/coronavirus/2019-ncov/faq.html>

Remember, everyone can follow these simple steps to avoid illness:

- Avoid large gatherings where illness can spread.
- Wash your hands several times a day for at least 20 seconds. If hand washing isn't immediately possible for you, an alcohol-based hand sanitizer is a back-up solution.
- Avoid direct contact with others, especially if they appear sick.
- If you are sick, stay home to avoid spreading your illness to others. If you are unable to stay home, then remember to cough or sneeze into your arm or a tissue or wear an appropriate medical mask to reduce the likelihood of others catching your illness.
